New Conquest System!

Mississauga, ON – January 9, 2006 – *Sensors & Software Inc. is pleased to introduce Conquest DE – the next generation of concrete imaging instruments.*

Whether clearing a site for cutting and coring or undertaking major structural changes, Conquest provides easy-to-use, cost-effective solutions.

The new Conquest system retains the on-site imaging concepts of its predecessors but brings this GPR technology to a whole new level. With a high resolution, large colour screen, a smaller, cutting edge sensor and faster, more advanced imaging algorithms, users can quickly get on-site results to solve any concrete construction problem.
