## Extension to the Conquest Software family

Mississauga, ON – May 30, 2006

Sensors & Software Inc. announces the next release of firmware for Conquest. The new release provides features such as:

- improved automated velocity calibration,
- enhanced data acquisition speed,
- easier software upgrade procedure,
- more flexible odometer calibration,
- crosshairs now available in Grid Scan,
- ability to reset to defaults, and
- extended Self-Help.

All Conquest systems ship with the new release firmware. For existing customers a free upgrade path has been announced.

For more information, contact one of our Conquest team technical specialists.
